User Manual

Introduction

Thank you for purchasing the LINDY two port automatic audio switch. This very compact switch allows you to connect two digital optical Toslink sources to a single optical TosLink (SPDIF) input on your AV amplifier, Hi-Fi or home cinema system. The optical switch will automatically detect the live signal and switch to this channel; alternatively you can use the push button to manually switch to the source of your choice. Each connected fibre cable can run up to 10m while still providing a reliable and lossless audio transmission.

Package Contents

- 2 Port Auto Optical Switch
- 5V DC Multi Country PSU
- PSU Instruction Leaflet

Features

- Provides a first come, first served auto switching function between two sources
- Micro switch for easy selection from auto or manual
- Active, lossless and true bit-transparent splitting

Specification

- Input ports: 2 x TOSLink (Optical Fibre)
- Output port: 1 x TOSLink (Optical Fibre)
- Supports S/PDIF standard of digital audio transmission for uncompressed PCM/LPCM and bitstream Dolby AC-3, Dolby 5.1, Dolby Digital, DTS and ADAT
- Compatible with all digital audio formats (S/PDIF, AC-3, ADAT Lighttrope etc.)
- Power Supply: 5VDC 1A
- Dimensions: (WxDxH) 66 x 39 x 20mm
- Housing: Plastic
- Colour: Black

Operation

1. Select: Use this mini switch to select ports 1, 2 or Auto
2. Power: Plug 5VDC PSU (included) into the unit and connect to a wall outlet
3. Optical output: For connecting your digital audio device
4. Optical input: For connecting your optical audio equipment such as DVD player or amp
5. LED: Indicates current input mode

CE/FCC Information

CE Certification

This equipment complies with the requirements relating to Electromagnetic Compatibility Standards EN55022/EN55024 and the further standards cited therein. It must be used with shielded cables only. It has been manufactured under the scope of RoHS compliance.

CE Konformitätserklärung

Dieses Produkt entspricht den einschlägigen EMV Richtlinien der EU für IT-Equipment und darf nur zusammen mit abgeschirmten Kabeln verwendet werden.

Diese Geräte wurden unter Berücksichtigung der RoHS Vorgaben hergestellt.

Die formelle Konformitätserklärung können wir Ihnen auf Anforderung zur Verfügung stellen

FCC Certification

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

You are cautioned that changes or modification not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

LINDY Herstellergarantie – Hinweis für Kunden in Deutschland

LINDY gewährt für dieses Produkt über die gesetzliche Regelung in Deutschland hinaus eine zweijährige Herstellergarantie ab Kaufdatum. Die detaillierten Bedingungen dieser Garantie finden Sie auf der LINDY Website aufgelistet bei den AGBs.

Recycling Information

WEEE (Waste of Electrical and Electronic Equipment), Recycling of Electronic Products

Europe, United Kingdom

In 2006 the European Union introduced regulations (WEEE) for the collection and recycling of all waste electrical and electronic equipment. It is no longer allowable to simply throw away electrical and electronic equipment. Instead, these products must enter the recycling process.

Each individual EU member state has implemented the WEEE regulations into national law in slightly different ways. Please follow your national law when you want to dispose of any electrical or electronic products. More details can be obtained from your national WEEE recycling agency.

Germany / Deutschland

Die Europäische Union hat mit der WEEE Direktive Regelungen für die Verschrottung und das Recycling von Elektro- und Elektronikprodukten geschaffen. Diese wurden im Elektro- und Elektronikgerätegesetz – ElektroG in deutsches Recht umgesetzt. Dieses Gesetz verbietet das Entsorgen von entsprechenden, auch alten, Elektro- und Elektronikgeräten über die Hausmülltonne! Diese Geräte müssen den lokalen Sammelsystemen bzw. örtlichen Sammelstellen zugeführt werden! Dort werden sie kostenlos entgegen genommen. Die Kosten für den weiteren Recyclingprozess übernimmt die Gesamtheit der Gerätehersteller.

France

En 2006, l'union Européenne a introduit la nouvelle réglementation (DEEE) pour le recyclage de tout équipement électrique et électronique.

Chaque Etat membre de l' Union Européenne a mis en application la nouvelle réglementation DEEE de manières légèrement différentes. Veuillez suivre le décret d'application correspondant à l'élimination des déchets électriques ou électroniques de votre pays.

Italy

Nel 2006 l'unione europea ha introdotto regolamentazioni (WEEE) per la raccolta e il riciclo di apparecchi elettrici ed elettronici. Non è più consentito semplicemente gettare queste apparecchiature, devono essere riciclate. Ogni stato membro dell' EU ha tramutato le direttive WEEE in leggi statali in varie misure. Fare riferimento alle leggi del proprio Stato quando si dispone di un apparecchio elettrico o elettronico.

Per ulteriori dettagli fare riferimento alla direttiva WEEE sul riciclaggio del proprio Stato.
